#### **GENERAL PRODUCT INFORMATION**

- -When operating from 0 to rated hydraulic pressure, air consumption will be approximately 24-56 scfm of free air at 100 psi output. At lower air pressures and higher hydraulic pressures air consumption will be reduced proportionately to flow rates indicated.
- -The U7-REX Series "Dry Lube" pump does not require an air line lubricator.
- -Contact Hydrorex for pressure gauges calibration / certificate.
- -Maintenance parts for future repairs, all components and accessories can be found on our website www.hydrorex.com
