

TECHNICAL DATA SHEET

PRODUCT	PRESSURE TEST CHAMBER
MODEL	PTC-24
SERIES	SERIE PTC
API	CERTIFICATED ACCORDING TO THE API

The Hydrorex Model PTC-24 Burst and Hydrostatic Test Chamber is a high-performance enclosure bunker for destructive and non-destructive testing applications... Manufactured and designed for high pressure resistance up to 60,000 psi per API requirements... All Stainless steel walls reinforced with wood to cushion the impact.

Designed according to military, nuclear, automotive, and aerospace specifications such as API, ASTM, ASME, ISO, DIN, and BS.

FEATURES/BENEFITS

- **Dimensions:** 24" x 24" x 24"
- **Construction:** All Stainless steel walls & 1" Square tube structure 1/8" thick
- **Pressure:** Up to 60,000 Psi
- **Applications:** Burst, Hydrostatic, Destructive, Leak Test and More.
- **Inlet Port Options:** 1/4 FNPT, 1/4 Autoclave MP or HP (9/16 Thread)
- **Unit weight:** 100 pounds - Shipment Dimensions: 34"L X 34"H X 34"W
- **HS Code:** 73090090
- Certificated according to the API

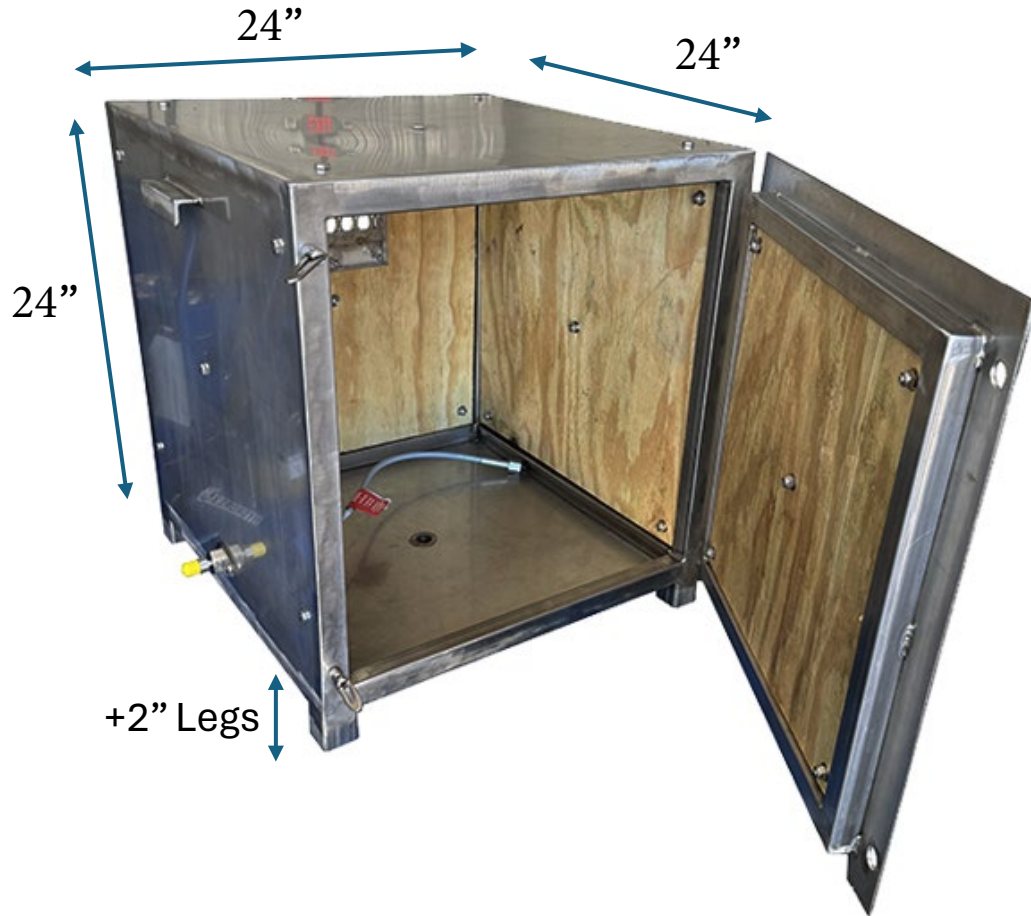

PERFORMANCE DATA

Pressure	0-60,000 Psi - Bar 0-4000
Pressure Inlet Port	1/4" female HP (9/16-18 UNF) Autoclave
Chamber Dimensions	24" x 24" x 24"
Material	Stainless
Brand	Hydrorex
Made In	USA
Style	Enclosure

MODEL PTC-24
PRESSURE TEST CHAMBER 60K
Weight: 90 Lbs

Pressure Exterior Hoses
10K, 15K, 20K, 30K & 60K

Inlet Port 1/4" HP 60K
For others hose adapters or quick disconnects Please contact us and let us know Your needs

1/4" HP Bulkhead Adapter to Hose Type M9

Flexible Interior Test Hose

Drain Port
